

STOP WORK

IF YOU FEEL UNSAFE

Your safety matters.

You have the right to stop work.

WHEN CAN YOU STOP WORK?

If you feel unsafe, you can and should stop work if:

- ☒ There is a risk of injury or harm, to you or others.
- ☒ Equipment, tools or the site are unsafe.
- ☒ You haven't been given the right information, training or PPE.
- ☒ You feel pressured to carry on despite your concerns.

*IT'S NOT JUST OK...
IT'S YOUR RIGHT!*

HOW TO REPORT THE ISSUE

Follow these steps to raise your concern:

1 STOP WORK

Make sure you are in a safe place and stop the task.

→ 2 TELL YOUR SUPERVISOR OR SITE MANAGER

Explain your concerns clearly and what you believe is unsafe.

→ 3 IF NEEDED, REPORT FURTHER

Not resolved, or not comfortable speaking to your supervisor? Contact your site manager, H&S rep or use your company's reporting system.

→ 4 KEEP SAFE

Do not put yourself or others at risk. Your concern will be taken seriously.

REMEMBER:

Your safety matters more than any deadline. No one should be punished for stopping work over a genuine safety concern.

**SAFE PEOPLE
BUILD GREAT SITES.**

*If you feel unsafe, speak up.
Stop work. Get it reported. Stay safe.*

Health and safety is everyone's responsibility.
